[Intro: Marvin Gaye]
Just like music, ooh-ooh-ooh
Ooh, oh baby
Just like music

[Verse 1: Erick Sermon]
To relax my mind so I can be free
And absorb the sound that keep me round
Doing my thing constantly with no worries
Peace to Keith Murray
(Just like music)
To keep me flowing and keep me going
And keep me growing
To keep me from the E from knowing
What happens out there is not my concern
You wanna die, it's not my turn
(Just like music)
To do something to me, like jump in the Mercedes
On the highway doing over 80
Without music baby (Ow, I'll go crazy)
(Just like music)
Make me call my homie on the phone
Like there's something new out that got me in the zone
Just that feeling got me
I wish music could adopt me
(Just like music)

[Chorus: Marvin Gaye]
Turn on some music
I got my music
Turn on some music
I got my music
Turn on some music
I got my music
Turn on some music
I got my music

[Verse 2: Erick Sermon]
(Just like music)
Put me in the mood with my woman
Got me in her ear, singin' sweet nothings
Make love come out of the mouth, no frontin'
Like all of a sudden
(Just like music)
Taking away any worries and cares

Any problems music will be right there
Together match, yo we a perfect pair
Is that true Marvin?
(Yeah, music)
Yo to get you to bang this
Body soul snatcher, universal language
It be the light, so open up
This is it, what the f***?
(Just like music)
One fly tune to have black and white vibe in one room
No confrontation, probably all night
It's just the sensation
(Just like music)

[Chorus: Marvin Gaye]
Turn on some music
I got my music
Turn on some music
I got my music
Turn on some music
I got my music
Turn on some music
I got my music

[Hook: Marvin Gaye]
Just like music
Music is the soul of the man
Music makes a happy day
And music makes the clouds go by baby
Your music keeps my tears inside my eyes
(Just like music)
Your music makes me want to sing
Girl, music is a joy to bring
(Just like music)
Music is my heart and soul
More precious than gold
Happiness today is just a song away
I love your music baby

[Chorus: Marvin Gaye]
Turn on some music
I got my music
Turn on some music
I got my music
Turn on some music
I got my music

Turn on some music
I got my music

Just like music...
